

# Birthday Party Event Contract

This BIRTHDAY reservation form must be submitted along with your payment. Your reservation is not complete until the payment is made and this reservation form is completed and received by YOUNG MAKERS LAB.

## INITIAL EACH BOX

- BIRTHDAY PARTY:** This reservation is for a birthday party. In the next section you will be asked to identify which type of party you are choosing. Prices vary for each party, and some details are spelled out in the next section.
- PARTICIPANTS:** Participants in the birthday party are defined as those who occupy the space and generally are participating in the party event (playing Minecraft, building, etc.) The birthday child(ren) are considered participants. Our base prices include the first 10 participants. Additional costs are associated with additional participants.
- SPECTATORS:** We allow spectators to stay and interact with partygoers. In a Minecraft party, if “spectators” join the game and occupy a computer they are considered participants and the host will be charged as such. In a “Build Party” if parents build WITH participants they are not considered participants, but if they build their own, then hosts will be charged for that additional spectator turned participant.
- ARRIVAL TIME:** We allow the host family to arrive 20 minutes prior to the start time of the party. **Please do not arrive earlier than 20 minutes prior.** If you feel you need more time, please communicate with YML at least 24 hours prior to the event.
- FOOD:** YML can provide Pizza for the participants – base price includes 3 large cheese pizzas. If you care to bring food from the outside (cake not included) there will be a \$30 surcharge. (Details on page 2)
- CAKE:** Hosts are responsible for providing their own cake. YML will provide paper goods, or you are welcome to bring your own.
- PAYMENT:** The base price of the party is due as soon as the reservation is made. We cannot hold a date without this payment. Base price is \$265. Note: Base price is also contingent on the party type and food options. (see page 2 for more details.)
- BALANCE DUE ON DAY OF EVENT:** The remaining balance for the party is due on the day of the event. This includes the cost of additional participants, party extras, etc.
- GRATUITIES:** Our party hosts and hostesses are focused on creating an epic party for your kids. Many parents ask us what is appropriate to tip them when they do an exceptional job. We suggest 10-20% of the party total to be split among the hosts. Please feel free to tip if you think you received exceptional service.
- DECORATIONS:** We provide decorations, including latex balloons and streamers. Many of our guests like to bring some of their own decorations, and we do allow that. Please communicate with YML to let them know if you are planning to bring your own decorations.
- SET-UP/CLEAN-UP:** We complete set-up and clean-up for you. We want your family to enjoy the day without worrying about details such as that.

## BIRTHDAY PARTY EVENT CONTRACT PARTY PARTICULARS

**MINECRAFT PARTY:** YML will have two servers set up for participants to explore when they arrive. One server will be set up in survival mode, the other in creative. (Ask your birthday child if you don't know what those are.) At somewhere around the 30 to 45 minute mark from the start of the party, we will break for food (assuming food is part of the party.) After food, YML hosts will provide a "challenge" for the participants in Minecraft. Often our challenges involve building and they always involve working together. We have several challenges that we can present to the birthday child to allow them to choose one that they like. Participants can choose the challenge or can continue to continue to work in one of our other servers.

**BUILD PARTY:** YML can offer build challenges such as "car" building, "egg drop" challenge, and much more. Please speak with a YML employee for details. The cost of the party includes all the materials for building. Food and cake breaks are similar in timing to our Minecraft Party.

**LEGO ROBOTICS PARTY:** YML will build one basic EV3 Lego Robot for each participant. The participants will be given instruction on how to make the robots sensors and motors operate, and how to program the robot. They then will be given mini-challenges to test their programming skills. The party will end with a Robot Sumo Challenge. We do not normally make the Sumo Challenge a "competition" in the true sense of the word. We want EVERYONE to have fun and sometimes the "competition" creates unhappiness. Food and cake breaks are similar in timing to our Minecraft Party.

### **PARTY TYPE: (Check one) – Note: these prices are for up to 10 participants.**

- MINECRAFT - \$265.00**
- BUILD PARTY - \$395.00**
- LEGO ROBOTICS - \$460.00**

### **FOOD REQUEST: (Check one)**

- YML is providing pizza for us – 3 large cheese (add \$50)**
  - We are bringing our own food (add \$30)**
  - We are NOT having food (no additional charge)**
- Note: YML does not supply cake, but we do supply plates, napkins and tableware.

**PRINT AND SIGN THIS RESERVATION FORM:** After reading the agreement in its entirety, please print and sign it. Your signature below indicates that you have read, understand, and agree to abide by all of the conditions herein.
